

Announcement of host for the Signature Symposium of the IEEE Bombay Section

IEEE Bombay Section has invited proposals from the heads of the Institutes, Department HODs or IEEE Student Branch Counsellors to host the Symposium at their organisations. It was heartening to note that we received overwhelming response from many potential hosts, which included BAMU (Aurangabad), Mahakal (Ujjain), MITM (Indore), MMBGIT (Mumbai), MPSTME (Shirpur), SAIT (Indore), SIT (Lonavala), Solapur University, SSBT (Jalgaon), UMIT SNTD (Mumbai), VIT (Mumbai) and VPCOE (Baramati). As most of the organisations had submitted detailed proposals providing information on excellent infrastructure and all other facilities available at their organisations, the host selection committee (the committee) has indeed found it very hard to arrive at the conclusion even after a detailed and systematic assessment.

After appropriately weighing various criteria listed in the invitation for proposal, the committee has finally selected UMIT SNTD (Mumbai) to host the first edition of this Symposium. Congratulations to the host, Prof. Sanjay Pawar. The committee would also like to place on record its deep sense of appreciation to all the enthusiastic bidders. Taking cognisance of excellent facilities available at many institutions of the sections, the committee concluded that these venues may be encouraged to host workshops and other technical activities that the section is planning to host in near future.

The Execom of the Section in its meeting today held at TIFR, Mumbai has endorsed the above mentioned decisions and observations of the committee. The Symposium will be held during September 10-11, 2015.

Dr. Satyanarayana Bheesette
Technical and Professional Activities Chair
For the Symposium Organising Committee, IEEE Bombay Section
